

Andrea Oxana Da Silva Pinto

Web/Mobile App Developer

EXPERIENCE

React Native Developer Ocho la Super App
Jan 2021 - Present | Remote/On-site | Valencia, Venezuela

I started in the company developing different APIs for all business models. High efficiency, leading performance, improved ideas and experience led me to be promoted to leader in mobile application development using the React Native Framework. I'm currently developing the Shopper App which has user registration, location tracking, orders history, real-time order reception in shops and clients. I am also in charge of developing the new version of the main OCHO app on both Android and iOS.

OCHO is a Delivery Startup in Valencia. Soon in two other cities in Venezuela. (React Native CLI).

React Native Developer & AI Enthusiast Wilklab Agency
Feb 2020 - Present | Remote | Valencia/Caracas, Venezuela

I developed a mobile app in React Navite Expo and Firebase for WhitePay Venezuela/Argentina/Peru/Uruguay/Chile/Colombia. The app has a ticket system and real-time chat for users and assessors of the company. App for both Android and iOS. (React Native Expo, Firebase).

Development Analyst Skyflot C.A.
Apr 2019 - Mar 2020 | On-site | Valencia, Venezuela

I developed the main configuration module of the company, which is in charge of the modules: General Aviation, Commercial Aviation, billing and receipt letterheads, list of countries and airports, holidays, rates, rate and salary incidents, changes in currencies, logo and banner changes, among others. Additionally, I developed the newest version of the Central Process Unit (Skyflot ERP) which consists of the central nucleus of all processes and systems that the company possess. (PHP 8/Laravel 5.8/Codelgniter/JQuery).

Developer Ecomerciar
Jan 2019 - Mar 2019 | Remote Buenos Aires, Argentina

I developed ideas and solutions for Online Stores through different Ecommerce platforms as well as design layout of banners and different sections of websites and applications. Carrying out different types of for the customers/Ecomerciar Account Manager. (PHP/Wordpress/Woocommerce).

System Analyst SofOS
May 2018 - Jan 2019 | Remote/On-site | Valencia, Venezuela

I developed Agricultural Solutions (Farm Control, Mass Document Loading, Bird Spiking). Web applications at FrontEnd level making using the SAP OpenUI5 framework for the different user interfaces. (SAP OpenUI5).
